1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Garth Dahlen on 8/27/04.

The application has been amended as follows:

1) Claim 8 was canceled without prejudice.

2. The following is an examiner's statement of reasons for allowance: The closest prior art is Hansen Jr. et al(US 5,272,175). The reference teaches structurally similar compounds as claimed in herein. See example 24, column 36, column 12, lines 58-62 and column 8, lines 48-68. Applicants are now claiming compounds in which R2 is always hydroxy. The reference fails to teach any hydroxy substituent on both the rings, and there is no motivation to arrive at the claimed compounds using the prior art of record, and claimed are novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
